## Transferable Skills

**Communication:** All of my previous roles have required excellent communication with colleagues, internal stakeholders and management. I have also presented to large audiences at work

**Agile Developer:** Implement agile management ideals by facilitating exercises such as sprint planning and team standups. I have worked in high stress environments consistently meeting deadlines

**Problem Solving:** To me coding is problem solving. I have been constantly using my technical skills and have gotten better at solving simple to complex front and back end problems

**Work ethic:** Throughout my career, my high level of integrity and care for my work has led to employers developing a high level of trust and increased responsibilities

**Project Management:** In past roles I've worked on several projects to improve existing processes or to create entirely new ones from scratch.

## My Experience

### Paperhat (Wellington)

Front End Developer (Volunteer)

Jul 2018 – present

Since July last year, I've been involved with Paperhat. An organization run by Charles Munat of BNZ and partially sponsored by BNZ. We are a volunteer group of developers, designers and business analysts who, including me have just completed a website for Wellington Law council.

### Enspirial Dev Academy (Wellington)

Full Stack Developer (Student/Apprentice)

Jan 2018 – June 2018

At EDA I didn't only learn new technologies but also human skills.

- JavaScript frameworks such as React, Redux, Jest etc. and the importance of testing your code
- How to write the business logic in order to manipulate data to achieve what you want in your web app
- CRUD basics, a vast array of human skills and pair programming etc

### Merck Sharpe & Dohme (Wellington)

QC Laboratory Technician

August 2014 – Mar 2018

I have worked as a Quality Control in the Sterility department for MSD-AH. Some of my duties included:

- Control testing on veterinary vaccines, raw materials samples to meet regulatory requirements
- Ran reports using SAP and also trained new and existing employees in SAP
- Reviewed/wrote SOPs for test procedures and for training in software such as SAP & Trackwise
- Wrote Method and Process validations to implement new or improve current testing procedures
- Accurately recorded test data in accordance with Good Documentation Practices

### Asure Quality (Auckland)

Laboratory Technician

May 2011- Aug 2014

- Performed data entry and reported results via LIMS (Lab Information Management System)
- Tested food and dairy products for a variety of different pathogens
- Answered customer queries regarding results or delays in testing
