A well communicated, highly skilled Service Desk Analyst, aspiring Full stack developer and confident public speaker, seeking a new challenging career in the IT sector.

Graduate from Enspirial Dev Academy's intense 18-week Full Stack Developer boot camp who is looking for role in the software sector to develop my current skill set further.

Technical Skills & Stack (Dev & Service Desk)

- JavaScript, HTML, CSS, Python
- SQL, Node.js, React, Redux
- RESTful APIs, Gatsby, Git & Github
- AWS Cloud Computing (EC2, VPC)
- Windows Active Directory
- Office 365, Skype for Business
- Microsoft Exchange Servers
- PowerShell Scripts

Technical Skills & Stack (Dev & Service Desk)

- **Agile Developer:** Implement agile management ideals by facilitating exercises such as sprint planning and team standups
- **Problem Solving:** To me coding is problem solving. I have been constantly using my technical skills and have gotten better at solving simple to complex front and back end problems.
- **Willingness to Learn:** I'm continuously learning new things about coding languages and improving the quality and quantity of my code.
- **Work Ethic:** Throughout my career, my high level of integrity and care for my work has led to employers developing a high level of trust and increased responsibilities
- **Communication/Customer Service:** All my previous and current roles have required excellent communication with colleagues, internal stakeholders and management

Recent Projects

Legal Check-up: A project sponsored in part by BNZ and overseen by experienced developers who are leading a group of Junior Devs to create a JavaScript app for Wellington Law Council.
<https://legalcheckupnz.netlify.com/>

Embracing Blue: Final project at EDA. A full stack app built using React, Redux, Express, Auth etc. I learned about agile development and how to connect the back end to the Front end.
<http://embracing-blue.herokuapp.com/#/>

Crypto-Currency-API: A recent personal project fetching data from a crypto-currency API. A combination of functional programming and style components bootstrapped with Gatsby.
<https://crypto-piq.netlify.com/>

Form-Validation Problem: A real world problem created by Springload to test developers.

Experience

Datacom (Wellington)

Service Desk Analyst

Jun - Oct 2019 (Fixed Term)

I am currently working as an analyst for Datacom's Parliamentary Support service desk. My duties include but are not limited to:

- Supporting Parliament Staff across the country remotely for Level 1 & 2 issues
- Coordinated escalations to appropriate tiers to resolve issues with high priority & VIP clients
- Support for remote access using VPN and CITRIX
- Software installations, maintenance, and configuration
- Deploying applications using System Center Configuration Manager (SCCM)
- Occasionally run PowerShell scripts for several issues
- Use Windows Active Directory and Microsoft Exchange server to update information and provide access to various applications, shared network drives and email addresses etc.
- Mobile support for secured Blackberry Good application installation, general user queries

Paperhat (Wellington)

Front End Developer

July 2018 – Current

Since July last year, I've been a volunteer employee with Paperhat. A project partially sponsored by BNZ. This project involves a volunteer group of developers, designers and business analysts who including me have just completed a website for Wellington Law council.

Enspiral Dev Academy (Wellington)

Full Stack Developer (Student/Apprentice)

Jan 2018 – May 2018

At EDA I didn't only learn new technologies but subsequently used them to create websites. Some of the technical and human skills I've acquired are:

- JavaScript frameworks such as React, Redux, Jest etc. and the importance of testing your code
- How to write the business logic and the basics of CRUD
- A better understanding of communication techniques for conflict resolution and team work
- At EDA Presentation skills were also greatly emphasized and I've acquired a new-found confidence in my verbal communication

Merck Sharpe & Dohme (Wellington)

QC Laboratory Technician

August 2014 – Mar 2018

I have worked as a Quality Control in the Sterility department for MSD-AH. A large part of my job was Technical Writing (reports, investigations & SOPs etc.). Some of my duties included:

- Control testing on veterinary vaccines, raw materials samples to meet regulatory requirements
- Ran reports using SAP and trained new and existing employees in SAP
- Wrote Method and Process validations to implement new or improve current testing procedures
- Accurately recorded test data in accordance with Good Documentation Practices
